+91 95803 74510 | arpitadubey0110@gmail.com | github.com/arpitadu6ey

PROFESSIONAL SUMMARY

Frontend developer proficient in React.js and JavaScript, with hands-on experience building responsive and component-based web applications. Skilled in modern UI development, performance optimization, and deployment via Netlify/Vercel, with an interest in growing into full-stack development.

EDUCATION

B. Tech, Computer Science & Engineering — Feroze Gandhi Institute of Engineering and Technology

2021 – 2025 | CGPA: 7.18

Class XII (ISC) — Ryan International School

2021 | 81.25%

Class X (ICSE) — Ryan International School

2019 | 64.4%

SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript, Java

Frameworks: React.js, Next.js, Tailwind CSS

Database: SQL, MySQL, MongoDB

Tools: Git, VS Code, npm

Soft Skills: Problem Solving, Strong Communication and Teamwork, Attention to Detail

Other: Responsive Design, Web Performance Optimization, SEO Best Practices

Curriculum: Web Development, Database Management System, Data Structure and Algorithm, Object-Oriented Programming

PROJECTS

E-Commerce Web Application

React, Tailwind CSS | Live: forever-1310.netlify.app | Repo: github.com/arpitadu6ey/E-Commerce-Website

- Built a fully responsive e-commerce web application with dynamic UI (React) and mobile-first styling (Tailwind CSS)
- Implemented product browsing, cart management, filtering, category navigation, and search.
- Deployed on Netlify with continuous deployment for fast and reliable hosting.

Portfolio Website Design

React, Tailwind CSS, Framer Motion | Live: portfolio-xi-khaki-95.vercel.app/ | Repo: github.com/arpitadu6ey/Portfolio

- Built and deployed a responsive, single-page portfolio website, featuring smooth scroll-based animations with Framer Motion
- Designed a component-driven architecture with centralized content management, enabling easy content updates.
- Implemented interactive UI elements including animated navigation, project showcase cards, and a functional contact form interface

Habit Tracker

HTML, CSS, JavaScript | Live: habit-tracker-theta-gules.vercel.app/ | Repo: github.com/arpitadu6ey/Habit-Tracker

- Built a habit-tracking web app with vanilla JavaScript, using DOM manipulation and event handling to manage habit creation, daily check-ins, and deletion
- Implemented streak calculation and a 7-day activity view per habit, along with data persistence across sessions using localStorage
- Designed a light/dark theme system with CSS custom properties, supporting both system-preference detection and a manual toggle.

INTERESTS

- UI/UX Design, Cloud Deployment, Scalable Architecture, Motion UI (Framer Motion/GSAP)
- MERN Stack, RESTful API Integration, DevOps, Database Management

CERTIFICATION

- Web Development — Internshala (2024)
